Re: 2021 California Assessment of Student Performance and Progress (CAASPP) Data

New: 2021 Growth Model Score:

CDE released scores for grades 4 through 8 for informational purposes. The scores are not actionable due to their historical nature. The methodology looks at growth for 2016-17, 2017-18, and 2018-2019.

LEAs will have a decile rank (1-10) of aggregate growth score. The Jefferson School District scores are based on 1,279 students. This is the Empirical Best Linear Predictor (EBLP) method.

ELA - All Students: Decile Rank = 9, Growth Score = 107.2

Math – All Students: Decile Rank = 7, Growth Score = 103.4

When the Growth Score is more than 100, on average students met expected growth. Equal to 100, students met their expected growth. If the score is less than 100 the growth was lower than expected. Our 2021 student growth scores in Math and ELA show that students included in the calculation met their expected growth.

Decile rank of aggregate growth score based on subject shows the percentile. We scored in the 90th percentile for growth in ELA and the 70th percentile for growth in Math.

State Testing During a Pandemic:

- JSD had In-person and Distance Learning leading up to 2020-2021 state testing
- Students tested in person or remotely with a new online platform rolled out
- LEAs in CA were given the option to administer the CAASPP assessments or use a different local assessment. Only 25% of CA students took the CAASPP tests.
- CST (Science) was not required in 2021 and was not administered in JSD
- New shortened tests & new blueprints for 2021, not able to compare results directly to previous years
- An increased number of JSD families were concerned and opted out of state testing

Percent of Students Meeting and Exceeding Standards (Math & ELA):

2019 Summative CAASPP:

ELA , All Students: 58.40%

Math, All Students: 45.61%

2020 Summative CAASPP:

No Test Data due to school closures, COVID Pandemic

2021 Summative CAASPP:

ELA, All Students: 51.96%

Math, All Students: 36.14%

PLEASE NOTE: Due to factors surrounding COVID-19, testing participation in 2021 varied. Care should be used when interpreting results. There was a shortened test blueprint for the assessments administered. Student score data should not be directly compared to previous test data scores.

JSD School Data

	Overall Met/Exceeded	Level 4 Exceeded	Level 3 Met	Level 2 Nearly	Level 1 Not Met
JSD ELA Math	 ELA 51.96% Math 36.14%	 20.07% 14.99%	 31.89% 21.15%	 23.06% 27.98%	 24.98% 35.88%
